Mock COP 26 is an international, youth-led climate conference, mobilizing around the postponement of COP26.

In place of the original COP, we are hosting an inclusive, online event to show world leaders and the global community what an ambitious, yet realistic COP would look like.

The five themes of Mock COP26 will be:

1. Climate education
2. Climate justice
3. Climate resilient livelihoods
4. Health and wellbeing
5. Nationally Determined Contributions

Join us from 19th November – 1st December 2020 as we put youth voices on the global stage!
How you can participate

As a member of the public, or an interested party, you can participate in Mock COP26 by:

- Watching parts of the event live on [the Mock COP26 YouTube channel](#)
- Attending one of the many exciting Mock COP26 fringe events (see page 21 onwards)
- Engaging with the Mock COP26 Pigeonhole at [pigeonhole.at/MOCKCOP](#), where you can:
  - Submit questions for our panel discussions,
  - Ask general Q&As
  - Submit words for our Wordle word cloud

Thursday 19th November 12:00-14:00 UTC
Opening Ceremony

Jayathma Wickramanayake, Sri Lanka, UN Youth Envoy

Jayathma Wickramanayake is the UN Secretary-General’s Envoy on Youth. Ms. Wickramanayake was appointed as the UN Secretary-General’s Envoy on Youth in June 2017 at the age of 26. She is working towards making the UN a home to the youth of the world.

Rt Hon Alok Sharma MP, Minister for COP 26, United Kingdom

Alok Sharma is Secretary of State for Business, Energy and Industrial Strategy in the United Kingdom, and Minister for COP 26, the 26th United Nations Climate Change Conference. He was elected as Member of Parliament for Reading West in May 2010.

Licypriya Kangujam, India

Licypriya is a 9 year old Indian Climate Activist. She has been championing her cause since she was 6 years old to protect, preserve and nurture our environment by fighting climate change. She is one of the youngest climate activists globally and addressed the world leaders in the United Nations Climate Conference 2019 (COP25) in Madrid, Spain, calling the world leaders to take immediate climate actions to save their future.
### Guest Speakers

#### Jerome Foster II, USA

Jerome Foster II (He/Him) is an 18-year-old African-American climate justice activist, voting rights advocate, and emerging technology developer. He is the Executive Director & Founder of OneMillionOfUs, mobilizing a new generation of young people to register and turnout to vote. Throughout 2019, He is the Co-Editor-in-Chief of The Climate Reporter, an international environmental news organization. Jerome has spoken at the UN High Commission on Human Rights, held weekly climate strikes in front of the White House, and helped to pass the Clean Energy DC Act.

#### Ashish Kothari, India

#### Ximena Loría, Costa Rica

Ximena is a Biologist and Founder and Executive Director of “Misión 2 Grados”, a Costa Rican non-profit organization whose work is based on three main areas: education and social mobilization regarding climate change, the facilitation of citizen participation in policy renewals, and the training of young leaders in climate change and environmental matters.

#### Deputy Speaker Loren Legarda, Philippines

Deputy Speaker of the Philippine House of Representatives Loren Legarda not only authored a lot, if not most of the environmental laws in our country, but also walks the talk: their household don’t need to buy food products anymore because they have everything in her own garden. She has also actively participated in global climate negotiations, including a part of the special Philippine delegation to the French Senate to discuss the Paris Agreement. She lives at the cleanest town in our country. The townsfolk there genuinely care about the environment that they have and what the future generations are going to inherit from them.

#### Climate Reality Project UK & European Branches

A series of three fringe events aimed at broadening attendees’ understanding of the Climate Crisis in a number of ways. The events, spread out over the course of several weeks, will cover three separate topics - climate consequences, climate co-benefits, and climate communication.

Register here: [https://www.downtoearth.institute/mock-cop](https://www.downtoearth.institute/mock-cop) (open to all).

#### Building your own Net Zero Path (Giki), 21 November, 15:00 UTC

What is Net Zero? Why is it important? How can every single one of us play a part in getting there? Giki Zero helps you understand carbon footprints and getting on your own path to Net Zero. Find some concrete ways to make changes today, and see how your footprint measures up against the global average. By understanding your individual impacts, you can help drive policy change too.

Join the session on Zoom at 3pm GMT 21/11/20 here (open to all).

#### Generations for Health, 14 November, 15:00 - 16:00 UTC

We will hold an horizontal dialogue between youth delegates from the Global South and the health leader "Disproportionate Impact: Climate-Health Nexus in the Global South".

Join live on the Facebook page at the start time: [www.facebook.com/GensforHealth](http://www.facebook.com/GensforHealth) (open to all).

#### Climate Science Problem Solver, 21 November, 17:00-19:00 UTC

The Climate Science Problem Solver is a competition that is based on quick thinking, teamwork, scientific research and climate education. Use your creativity and scientific research skills to develop solutions to climate-related issues and gain a better understanding of the challenges of doing so.

**Catalyse Change CIC**, 29 November, 15:00 - 17:00 UTC

Our event will collect and share stories and facts about the impacts of climate injustice on the public; whilst providing the space for participants to engage in craftivism to create a physical depiction of how they imagine a greener and fairer future. Designed and implemented by young women, it will model what inclusive participation looks like.

**RE-PEAT**, 27 November, 18:00 - 19:00 UTC

Our event will explore the Nationally Determined Contributions and the role that peatlands can play in achieving these. Despite being the largest terrestrial carbon sink, peatlands are commonly an underrepresented and underregarded topic in climate conversations.

Mock COP26 delegates

Sponsored by:
Mock COP26 delegates will be representing the youth of their respective countries at the conference. As well as participating in the panels and discussions, our delegates will be debating and voting on the policies and ideas to include in our **Global Statement**.

After a popular application process, we have more than **330** delegates taking part, from more than **140** countries around the world. Each country delegation will give a high-level statement with their perspective on and vision for climate action.

We will be sharing stories and messages from our delegates throughout the event, so make sure you are following Mock COP26 on social media to hear more from them.
